## Smart Water Meters Installation

One of the bond projects approved by voters in May 2018 is replacing existing water meters with Smart Meter technology. The contract for installing new meters was awarded to Accurate Meter & Supply, and they are ready to begin.

On **Tuesday, October 1<sup>st</sup>**, crews will begin cleaning out meter boxes. The installation of new meters is scheduled to begin on **Wednesday, October 2<sup>nd</sup>**. A uniformed employee of Accurate Meter & Supply will knock to let you know that your water will be off for a short time while they switch out the meter. If no one answers the door, they will hang a door tag to let you know that your new meter has been installed. Please run cold water in a sink closest to where water lines enter your home to flush your lines. Installation in the entire subdivision is expected to take 6 – 8 weeks.

**Townhall Meeting**  
**Wednesday, October 9<sup>th</sup>**  
**6:30 p.m.**  
**Columbia Lakes Conference Center**

A Townhall Meeting has been scheduled to update you on the status of the Smart Meter installation and how this new technology works. Representatives from Accurate Meter & Supply will be here to answer any questions you may have and help you set up an online account so you can monitor your water usage and receive alerts about potential water leaks and/or high usage in your home.

If you have any questions, please call the District Administrator at (979) 345-6008 or the VCUD billing clerk at (979) 308-2300.

Sincerely,  
Varner Creek Utility District  
Board of Directors
